BS EN 1500	BS EN 13623	BS EN 13727	BS EN 14476

(All tests results published on www.sterizar.com)

Environmentally Green & Clean

- Contains 95% Deionised Water
- 100% Biodegradable
- Contains no irritants
- Non Flammable
- Ph level of 6.5-7.3
- Reduced carbon footprint
- Fully compliant with EU Biocide Regulations
- Manufactured under ISO 9001
- Tested to be safe on skin
- Not harmful to plants or animals

Composition & information on ingredients

- A blend of Surfactants, a core biocide, complexing & gelling agent, plus moisturiser.
Active Ingredients < 5%

Handling and Storage

- Keep in cool, dry area. Do not mix Chemicals.

STATEMENT of FACT

Bleach and alcohol based hand gels only give short term protection either on the skin or on hard surfaces, as their effectiveness stop working as soon as they dry. With no long-lasting protection the treated areas are clear for bacteria and other microbes to quickly recolonise. The speed of recolonisation of bacteria means that within one day a single surviving bacteria cell can reproduce up to 6 million new individual cells on untreated surfaces.
